HOW

This call deals with several interrelated topics, such as food security, food safety, nutrition, and consumer acceptance. It will focus on new food ingredients, new food or technologies and their contribution to healthy, sustainable diets. Important aspects to be addressed in this regard are safety, nutritional quality, digestibility, bioeconomic aspects, and consumer acceptance of new ingredients, food and framework conditions. The proposals should include one or more of the following approached and methodologies:

- Exploratory research where consumer insight is included (social labs, living labs, etc.);
- Systemic reviews to map and organize current research on the area;
- Building more research and knowledge on the food science aspects

WHEN

The call was launched on February 21st, 2023 and consists of a one-stage submission procedure. Applicants had the possibility to answer the comments of the reviewers during the rebuttal phase. Submission deadline of the pre- and full proposals is set on March 31 and July 22, 2021, respectively.
